

DECLARATION

I, Gurpreet Singh Matharu, Student of M.Tech (I.T) hereby declare that the Dissertation titled **“Enabling Location Aware Services on Handheld Devices using iBeacons”** which is submitted by me to Department of Information Technology, Amity School of Engineering and Technology, Amity University Uttar Pradesh, Noida in partial fulfillment of requirement for the award of degree of Master of Technology in Information Technology, has not been previously formed the basis for the award of any degree, diploma or other similar title or recognition.

GURPREET SINGH MATHARU

CERTIFICATE

On the basis of Dissertation submitted by **Gurpreet Singh Matharu**, Student of M.Tech (I.T), I hereby certify that the Dissertation “**Enabling Location Aware Services on Handheld Devices using iBeacons**” which is submitted to Department of Information Technology, Amity School of Engineering and Technology, Amity University Uttar Pradesh, Noida in partial fulfillment of requirement for the award of the degree of Master of Technology in Information Technology is an original contribution with existing knowledge and faithful record of work carried out by him under my guidance and supervision.

To the best of my knowledge this work has not been submitted in part or full for any Degree or Diploma to this University or elsewhere.

Noida

Date

Mr. Naveen Garg

Assistant Professor

Department of Information and Technology

Amity School of Engineering & Technology, Noida

ACKNOWLEDGEMENT

The author would like to express his most sincere thanks to Mr. Suprakash Datta, Professor, York University, Toronto, Canada (External Guide) for his significant inputs and tireless assistance throughout the dissertation, without which this work would never have been possible.

A huge appreciation is given to York University, Toronto, Canada for providing the necessary infrastructural and logistic support for undergoing the internship.

The author would also like to extend gratitude towards Mr. Naveen Garg, Department of Information Technology, Amity School of Engineering and Technology, Amity University Uttar Pradesh, Noida (Faculty Guide) for his continued support and guidance.

The author would like to convey gratefulness to Mr. Vikas Deep, Programme Leader, Department of Information Technology, Amity School of Engineering and Technology, Amity University Uttar Pradesh, Noida whose wisdom and support were invaluable throughout the dissertation.

The author feels duty bound to express his sincere gratitude and deep respect towards Ms. Nitasha Hasteer, Acting HOD, Department of Information Technology, Amity School of Engineering and Technology, Amity University Uttar Pradesh, Noida for her omni-present support and guidance throughout the course curriculum.

The author feels indebted towards Prof. (Dr.) Balvinder Shukla, Hon'ble Vice Chancellor, Amity University Uttar Pradesh, Noida for granting me an opportunity to pursue my dissertation at York University, Toronto, Canada.

.

ABSTRACT

Bluetooth Low Energy (BLE) is an emerging technology that enables low-energy, low-cost and short-range communications, whereas iBeacon is an Apple's standard that has been recently gaining attention, being based on BLE standard. iBeacons are BLE-enabled small-sized wireless sensors that are already exhibiting the potential of powering a whole range of BLE-enabled applications in verticals such as retail stores, museums, airports to name a few. The thesis presents a detailed study of BLE as well as iBeacons with a major focus being on Estimote iBeacons. This thesis includes the design and development of custom android application that interacts with Estimote iBeacons. Further, issues in localization algorithms pertaining to wireless sensor networks have been discussed, followed by proposed localization algorithm for iBeacon networks. Then, the thesis moves on to the security part of iBeacons, discussing the associated security concerns, besides proposing several security solutions. The thesis concludes with the future scope of iBeacon technology.

TABLE OF CONTENTS

Acknowledgements	i
Abstract.....	ii
Table of Contents	iii
List of Figures.....	viii
List of Tables	Error! Bookmark not defined.x
Chapter 1: INTRODUCTION	1
1.1 MAIN OBJECTIVES OF THIS PROJECT	2
1.2 NEED OF THIS PROJECT	2
1.3 MOTIVATION BEHIND THIS PROJECT	2
1.4 APPLICATION OF THIS PROJECT	3
1.5 THESIS OUTLINE.....	3
Chapter 2: LITERATURE REVIEW.....	5
Chapter 3: BLUETOOTH LOW ENERGY (BLE)	8
3.1 HOW IS BLE DIFFERENT FROM TRADITIONAL BLUETOOTH?	8
3.2 HOW DOES BLE COMMUNICATION WORK?	9
3.3 TECHNICAL DETAILS OF BLE.....	10
3.4 ADVANTAGES OF BLE.....	11
Chapter 4: ALL ABOUT iBEACONS	12
4.1 WHAT ARE BEACONS AND iBEACONS?.....	12
4.2 HOW DO iBEACONS USE BLE COMMUNICATION?.....	14
4.3 WHAT IS A BEACON REGION?.....	14
4.4 FUNCTIONS OF iBEACONS	15

4.4.1 MONITORING.....	15
4.4.2 RANGING	17
4.4.3 iBEACON SETTINGS	18
4.5 TECHNICAL DETAILS OF iBEACONS	19
4.6 COMPATIBLE DEVICES	19
4.7 BROADCASTING RANGE AND PROXIMITY.....	19
4.8 UNIQUE IDENTIFIERS OF iBEACONS	20
4.9 CONTEXT AND MICRO-LOCATION FROM THE CLOUD	20
4.10 GEOFENCING	21
4.11 MONITORING DISTANCE AND TRIGGERING EVENTS.....	21
4.12 ADVANTAGES OF iBEACON TECHNOLOGY	21
4.13 LIMITATIONS OF iBEACONS	22
Chapter 5: WORKING WITH ESTIMOTE iBEACONS	24
5.1 WHAT ARE ESTIMOTE iBEACONS AND STICKERS?.....	24
5.2 HOW DO ESTIMOTE iBEACONS WORK?.....	25
5.3 COMPATIBILITY OF ESTIMOTE iBEACONS.....	26
5.4 IDEAL PLACEMENT OF ESTIMOTE iBEACONS.....	26
5.5 HOW TO MODIFY ESTIMOTE iBEACON’S IDENTIFIERS.....	27
5.6 ROLE OF TRIGGERS IN ESTIMOTE iBEACONS.....	28
5.7 UPDATION OF ESTIMOTE iBEACON’S FIRMWARE.....	28
5.8 WHAT IS ESTIMOTE CLOUD?.....	29
5.8.1 DASHBOARD.....	29
5.8.2 FLEET MANAGEMENT.....	29
5.8.3 iBEACON ANALYTICS	31

5.8.4 iBEACON SHARING	33
5.8.5 iBEACON OWNERSHIP TRANSFER	34
5.8.6 iBEACON NAMING.....	36
5.8.7 API ACCESS	36
Chapter 6: COMPARISON OF iBEACON WITH NFC & GPS.....	37
6.1 COMPARISON BETWEEN iBEACON AND NFC	37
6.2 COMPARISON BETWEEN iBEACON AND GPS.....	39
Chapter 7: CUSTOM ANDROID APP DEVELOPMENT	41
7.1 COMPARISON BETWEEN iBEACON AND GPS.....	41
7.2 FEATURES AVAILABLE ON OUR CUSTOM APP	42
8.1.1 iBEACON SCANNING	42
8.1.1 PROCESS AUTOMATION	43
8.1.1 DISTANCE ESTIMATION (LOCALIZATION)	44
8.1.1 APP NOTIFICATION	45
8.1.1 iBEACON CHARACTERISTICS.....	46
8.1.1 SHARE & SAVE READING SETS.....	47
7.3 READINGS & GRAPHS	48
Chapter 8: LOCALIZATION IN WIRELESS SENSOR NETWORKS	51
8.1 ISSUES IN LOCALIZATION ALGORITHMS	52
8.1.1 RESOURCE CONSTRAINTS	52
8.1.2 RADIO PROPAGATION.....	52
8.1.3 NODE DENSITY	53
8.2 RANGING TECHNIQUES IN WIRELESS SENSOR NETWORKS.....	53
8.2.1 RECEIVED SIGNAL STRENGTH INDICATOR (RSSI)	53

8.2.2 TIME OF ARRIVAL (ToA).....	54
8.2.3 TIME DIFFERENCE OF ARRIVAL (TDoA).....	54
8.2.4 ANGLE OF ARRIVAL (AoA).....	55
8.2.5 RANGING USING RSSI	55
Chapter 9: LOCALIZATION IN iBEACON NETWORKS	56
9.1 CONSTRAINTS	56
9.2 DISTANCE COMPUTATION USING RSSI	57
9.3 BOUNDING BOX CREATION.....	57
9.4 SAMPLING	59
9.5 FILTERING & WEIGHING THE SAMPLES.....	60
9.6 STEPS INVOLVED IN ALGORITHM	61
Chapter 10: SECURITY OF iBEACONS: CONCERNS AND SOLUTIONS	62
10.1 SECURITY CONCERNS FOR iBEACONS	62
10.2 SECURITY SOLUTIONS FOR iBEACONS	63
Chapter 11: FUTURE SCOPE	67
